ISA WINS NEW BIDDING TO CARRY OUT A PROJECT IN MONTERÍA

- *This is the second project awarded to the company in less than a week in Colombia.*
- *UPME 07-2013 Public Bidding will mean for ISA annual revenue of USD 9 (US Dollars of December 2013).*

UPME awarded ISA, subject to the review of the CREG, the project will allow the Company to design, procure, build, operate and carry out maintenance of the Montería 230 kV Substation and the associated transmission lines; which are going to connect to the actual Chinú and Urabá substations.

The project is located in the Córdoba and Sucre provinces and shall be in operation by November 30, 2016. It will bring improved reliability to the region and will serve the demand growth in the Córdoba Province.

Last July 10, ISA was also awarded UPME Public Bidding for designing, building, operating and carrying out maintenance of the connection of the Reforma substation to the Guavio – Tunal 230 kV circuit, a project that will bring in to the company annual revenue close to USD 0.5 million.
