Public Policy on Human Rights and Companies

**Generate culture**
- Systematically develop culture in the business sector with risk management and impacts under due diligence processes
- Encourage businesses to define and disclose their commitment to Human Rights
- Promote adoption of express commitments to Human Rights
- Businesses refrain from violating Human Rights and face negative consequences
- Recognize the value of the business role for the dissemination of values in society
- Implement due diligence

**Mechanisms**
- Having effective remedial mechanisms in case of violation
- Disclosure and accountability to stakeholders

**Meeting points (Partnerships)**
- Promote opportunities for dialogue to solve problems between civil society and the company
- Initiatives for partnership between State and private sector to generate sustainable development
- Identify job opportunities between the private and public sectors
- Make visible any assistance opportunities with full compensation of victims

**Involvement from others**
- Support for those SMEs with whom trading relations are held
- Provide guidance to communities
- Promote respect for LGBTI
- Preventive actions to violation of human rights of children and adolescents
