

Generate culture

- Develop a culture in the corporate sector with systematic risk and impact management under due diligence processes
- Encourage companies to define and disseminate their commitments to Human Rights
- Promote the adoption of explicit Human Rights commitments
- Companies abstain from infringing Human Rights and face negative consequences
- Recognize the value of corporations' role to promote values in society
- Implement due diligence

Mechanisms

- Have effective remediation mechanisms in case of violations
- Dissemination of information and accountability to stakeholders

Meeting points (Partnerships)

- Promote spaces for dialog to resolve problems between civil society and the company
- Association initiatives between the State and the private sector to generate sustainable development
- Identify work opportunities between the private sector and public sector
- Promote opportunities for support with comprehensive reparations for victims

Involve others

- Support SME that have business relationships with ISA
- Guide the communities
- Promote respect for the LGBTI community
- Actions to prevent violations of human rights of children and adolescents
